Toronto, 18 October, 1853.

Sir

In compliance with your instructions I have made an examination and survey of the six houses occupied by the Principal and Masters of the Upper Canada College, and now have the honor to report,

1st That externally the roofing of all the houses requires examination and repair, many leaks being apparent of such extent as to render some of the rooms uninhabitable. —

2d That the front fences and entrance steps throughout are in such dilapidated

Condition

condition as to render an entire restoration necessary.

3rd. That the rear basement walls, the woodsheds, planking in yards, division fences, are all in an unsafe and unserviceable state, and so entirely decayed as to render full reconstruction imperative.

4th. That the basement rooms throughout (with but very trifling exception) have been so seriously injured by damp, and deposits, consequent upon inefficient drainage, in addition to the ordinary wear and tear of long service, as to require new joisting and flooring, new skirtings and wall linings, the thorough clearing

and

and cleansing of the spaces beneath the floors, coloring of all the walls, and painting of all the internal wood work. –

5th That the internal staircases between the basement and ground floors are generally in a very dilapidated state, requiring new treads, & nosings, and the repair of the balusters & handrails, and that the entrance halls and said basement staircases, require coloring of the walls, and painting of the woodwork.

6. That general repairs are requisite to the doors and windows throughout the buildings, many being defective in their hanging,

close

loose, and open to the weather, and further that the external woodwork requires painting as a measure of precaution.

7th The most important item, however, is the drainage, which is in a very improper condition of inefficiency. Cesspools have been constructed in close contiguity to each dwelling, and these, without exception, are in a dilapidated state, having unserviceable outlets, resulting in stagnant waters or in a master so offensive as to be injurious to health. These cesspools should be entirely removed, and proper and efficient drains substituted, to connect with the public

sewers

Sewers. – From the accretion of Water beneath the basement floors, and the consequent decay of the timber, it is evident that there also the Drainage is ineffective, and I consider it positively necessary, alike to the security of the Buildings, and the health of the inmates, that a full, proper, and entire system of drainage should at once be supplied. –

I have thus detailed the chief items of so substantial repair which in my opinion are absolutely necessary. –

The houses, with perhaps two exceptions, where, private expenditure appears to have been incurred, are, in

their

their present condition
should unfit as residences
for the officers of the College,
and if only as a security
against further and permanent
injury to the property. I think
these repairs ought to be executed
without delay. –

It is impossible (especially
in the matter of drainage) to
estimate with close accuracy
what would be the expense of
these works; I have however
endeavoured to arrive at an
approximation, and believe
that an expenditure of £1250
would be necessary to place
the premises in a fair repair,
and in a ~~fair~~ safe, wholesome,
and tenantable state.

Sir,

In reply to your letter of the 1st Inst. I have the honor to state, that on an examination of the original diagram of the Survey of Mosa together with the Office Plan of that Township, I am convinced that the number of acres, contained in the Lots to which you call my attention has been erroneously stated in the Patent to the College.

In that Patent C.No 13 and 14 are given separately the first as containing 10 acres the other 10 acres whereas the two Lots together contain 20 acres only, these part of C.No 13 northerly of the centre line of the Range S.L. in R. together with a very small broken front between it & Westerly lines to the Thames, containing 100 acres & [illegible]

part of the same Lot together with No 14
one hundred and seven

C No 14 should be thus described

Commencing where a post has been planted
on the limit between the said Lots No 13 and Lot
the South Easterly angle of C No 14, then North
43° 58' West, 5 Chains more or less to the River
Thames, then following the margin thereof
against the stream to the allowance for Road
between the 2nd and 3 Ranges South of the
Long Woods Road, then North 42° 10 East,
21 Chains more or less to the place of beginning
containing 10 acres, more or less

Deducting as shown by the above description
ten acres for this Lot, C No 13 will contain one
hundred and ninety Seven acres

Sir,

I am commanded by the Governor General to inform you that His Excellency has had under his consideration in Council, your letter of the 26th Decr last, enclosing an account from Messrs Cumberland and Storm for repairs &c done to the Buildings of Upper Canada College, under the order in Council of the 26th October 1853.

His Excellency in Council has been pleased to direct you to pay the Contractors, Messrs Ritchie, Marsh and Pim, the balances certified to be due to them, by the Architects Messrs Cumberland and Storm, amounting together

together to £2149-4-11- and that funds necessary for that purpose be, as you suggest, raised by an appropriation from the Permanent Fund, under the authority of the 57th section of the University Act.

As respects the sum of £173.11.3 claimed by the said Architects as their Commission, His Excellency in Council, in view of the very great excess of the actual cost above the estimated cost of the repairs, and of the fact that a considerable portion of the repairs appears to have been wholly unauthorized, desires, before paying the account, to obtain from you all the information you can procure in reference to the matter, to guide the Government in coming to a decision as to the amount of remuneration to which the Architects are fairly entitled.

The accounts enclosed in your letter are herewith returned.

I am further directed to state that the course pursued by the Architects, in not keeping you advised of the very great excess of the Expenditure over the estimated cost, appears to His Excellency in Council to call for my severe censure, and I have to direct you to inform those Gentlemen that the Govern-ment require some more satisfactory Explanation of the reasons of their unexpected and unauthorized excess.

You will transmit to me, for His Excellency's information, any statement on this head, which those Gentlemen may furnish you with.

Copy of a Report of a Committee of the Honorable the EXECUTIVE COUNCIL, dated 15th February 1855 approved by His Excellency the Governor General in Council on the 17th of the same month.

The Committee have had under consideration a Memorandum from the Honorable Inspector General on a reference to him of a Communication from the Bursar of the University College Toronto, on the subject of providing investments for the University Fund; —

The Inspector General has also taken into consideration in connection with the above subject, an application from the Buffalo, Hartford and Goderich Railroad Company, for a loan of the sum of £10,000 to enable them to meet certain liabilities of a most pressing character — The said loan to be secured by a deposit of bonds of the said Railroad to the amount of £30,000, collaterally secured by a Chattel Mortgage on the whole Rolling Stock of the Company —

The Inspector General is of opinion that the bonds of the above mentioned Company with the guarantee proposed are amply sufficient security for the loan asked for; and he submits that

~~To the Honorable~~
~~The~~

&c. &c. &c.

Trustees of the University be authorized to invest the sum of £50,000, as soon as the funds shall have been deposited and the Rolling Stock insured at the expense of the Company properly and regularly assigned under the direction of the Solicitor of the University, and to be held by the Trustees by way of Collateral Security —

The Committee concurs in the opinions expressed in the said Memorandum and recommend that they be approved and carried into effect. —

Memorandum

On the reference to the Inspector General as to the investment of University Funds

The Bursar of the University in transmitting his accounts states that there is a balance in hand exceeding ten thousand Pounds for investment awaiting His Excellency's instructions that the fund is constantly accumulating and that the Board of Endowment are without any general instructions regulating investment. The Bursar also remarks that when for a short period in 1852. 3. investments in real securities were permitted much additional labor was thrown upon the department, charges of favoritism were brought, and that the collection of interest was less regular and certain than when derived from Debentures. Reference is also made by the Bursar to certain special applications for loans on real security which appeared to present some favorable Points for the consideration of His Excellency. The Inspector General respectfully submits that the inconvenience experienced from the mode of investment temporarily adopted in 1852. 3.

will scarcely justify a return to the same system and in the special application referred to that no sufficient ground is made out for departing from the course more recently adopted by the Government of investing special funds in Provincial Securities, consolidated loan fund debentures, railway or other securities of a like character which may in the opinion of His Excellency furnish a safe mode of investment

As bearing on this question the Inspector General takes this opportunity of bringing under the notice of His Excellency an application for a loan from the Buffalo Brantford and Goderich rail-road Company made through Mr Wilkes Chairman of the finance Committee of that company. The amount sought to be obtained is £15.000 on £30,000 of railroad bonds collaterally secured by a chattel mortgage on the whole rolling stock of the Company. It appears by the documents submitted by Mr Wilkes that upwards of £800,000 have been expended on the

road, that eighty four miles of it have been opened and used by the Public for some months. Mr. Wilkes stated that owing to the tightness of the money market the Company have not been able latterly to negotiate their securities, that consequently they have fallen into arrear with their laborers and monetary engagements. The consequences have been very serious - the laborers who hold claims to the amount of £6,000 in their own hands, have turned out in a riotous manner, committed acts of violence and interrupted the travel of the road, which is now in fact closed, the Directors considering it unsafe to run cars, while these especial claims remain unsatisfied, not knowing to what extent of desperation and mischief the rioters may be urged, and apprehensive of danger to life and property from threatened obstructions on the road, the removal of rails &c. To add to their

Embarrassment the Sheriff has seized the rolling stock of the Company on account of other claims which have been preferred against them to the amount of £7000 - which if not immediately settled will lead to such a sacrifice of the Company's property as would paralise all efforts to extricate themselves from their position - On the other hand Mr. Wilkes represents that the road has been economically constructed, that the portion which has been opened has been worked to a profit, that these two pressing claims once removed no recurrence of a like character is to be apprehended, the part of the road in question being finished and in running order and the rolling stock held by the parties advancing the loan necessary to effect its release. Under all these circumstances the Inspector General is of opinion that the bonds of the Buffalo & Goderich R. Road Company on the terms offered and collaterally secured by the rolling stock which is represented to be of the value of not less than £75,000 would be ample security for the loan sought for and it is therefore respectfully submitted that the

Bursar of the University be authorized to invest the Sum of Fifteen thousand Pounds, so soon as the Bonds shall have been deposited, and the Rolling Stock insured at the expense of the Company properly and regularly assigned under the direction of the Solicitor of the University, and to be held by the Bursar by way of Collateral Security.

The Inspector General has not thought it necessary to enter upon any Reasoning upon pro & con the question, of the sufficiency of the Security which might be adduced in favor of the application of the Buffalo Brantford & Goderich Railway, but the prospect held out by the Company that aid promptly afforded will enable them to carry through a political project

Hence

61-1

and the fact that Municipalities in Western Canada, including the Counties of Huron Perth and Bruce are pecuniarily interested in this road, and that their Bonds are held by the Government as trustees of Special Funds, may be considered as not without weight, after the main question of the sufficiency of the Security has been decided.

respectfully submitted
Wm Cayley

Copy of a Report of a Committee of the Hon.ble the Executive Council, dated 15th February 1855. approved by His Excellency the Governor General in Council on the 17th of the same month.

The Committee have had under Consideration the annexed Memorandum from the Hon.ble Inspector General, on a reference to him of a Communication from the Bursar of University College Toronto, on the subject of providing Investments for the University Fund.

The Inspector General has also taken into Consideration, in Connection with the above Subject, an application from the Buffalo, Brantford, and Goderich Railroad Company, for a Loan of the sum of £15000 to enable them to erect

Contains

Certain liabilities of a most pressing character, the said Loan to be secured by a deposit of Bonds of the said Railroad to the amount of £30000, collaterally secured by a Chattel Mortgage on the whole Rolling Stock of the Company.

The Inspector General is of opinion that the Bonds of the above mentioned Company with the guarantee proposed are amply sufficient security for the Loan sought for, and he submits that the Bursar of the University, be authorised to invest the sum of £15000, as soon as the Bonds shall have been deposited, and the Rolling Stock insured at the expense of the Company, properly & regularly assigned under the direction of the Solicitor of the University, and to be held by the Bursar by way of Collateral Security

The

The Committee concur in the opinions expressed in the said Memorandum, and recommend that they be approved and carried into effect.

The error arose in this way, the memorandum and minute were sent to my Department by the Clerk of the Council - instead of to the Secretary who was consequently unaware that any action had been taken upon your report. I, assuming that a copy had been sent to Meredith and by him to you, remained in ignorance of the omission until your telegraph was received. but the fault was not that of the Clerk of the Council but mine, as I had omitted to return to Mr Lee your memorandum which would have guided him in returning the documents to the proper department. Now with reference to the investment itself the Government were extremely anxious, for the sake of the reputation of Canadian railroad and securities in England, not to allow this railway to

I am commanded by the Governor General to inform you that an application has been made to His Excellency on behalf of Alan Cameron Esq. the Cashier in your office, for payment of a Commission which he claims in his capacity as Collector of the fees and dues in Upper Canada College.

It has been represented to His Excellency, in support of Mr. Cameron's claim, that prior to the passing of the 16th Vic. chap. 89 a rule was passed by the then College Council giving the Collector of fees and dues therein 3 per cent

Assuming the foregoing statement of facts to be correct and assuming (what His Excellency believes to be the fact) that the rule referred to has not been repealed or altered by any subsequent statute, His Excellency is advised that it remains in full force and that Mr. Cameron is therefore legally entitled to the payment of the Commission.

Copy of a Report of a Committee of the Honorable the **EXECUTIVE COUNCIL**, dated 10th August 1855 — approved by His Excellency the Governor General in Council on the following day

---

On a communication, dated 14th July ult.o from the President of University College, Toronto, submitting for Your Excellency's approval a Statute (N.o 9) passed by the College Council, establishing a Tutorship in the Department of Classical Literature.

Dr. McPaul by direction of the College Council, submits the names of the following Gentlemen as Candidates for the Tutorship so established, viz: Mr. Ernestus Crombie, B. A., Mr. James Brown, B. A., and Mr. S. S. Marling, B. A. – the name of Mr. Crombie being specially recommended to Your Excellency's favorable notice.

He also submits that the Office of Classical Tutor be held with that of Registrar, that the period for which these Offices shall be held, be four years, but that the same Person may be re appointed – that the remuneration for the two Offices shall be £250 per Annum, and that the Officer in the capacity of Tutor shall discharge such duties as shall be assigned to him by the Professor of Classical Literature subject to the authority of the Council, and, in his capacity of Registrar, such duties as shall be assigned to him by the President, subject to the authority of

To the Honorable
The Provincial Secretary
&c. &c. &c.

the Council.

The Hon. Attorney General for Upper Canada recommends that the Statute No 9, submitted by the College Council, be approved - Also - that Mr. Ernestus Crombie, B.A. be appointed during Your Excellency's Pleasure, Tutor under the said Statute. That Mr. Crombie be informed that his appointment will cease, without further signification of Your Excellency's Pleasure, in four years from the date of his appointment, but that he is eligible for reappointment. He also recommends that his Salary be £120 per annum - being the amount originally recommended by the Council for the Tutorship.

With regard to the junction of the Offices of Registrar & Tutor at a Salary, for the joint duties, of £250, recommended by the College Council, he suggests that if a Tutor be required as he doubtless is, or the College Council would not have applied for the appointment, his time will be fully taken up with the duties of his Office - and he submits that the management of the affairs & property of the College, should, as a rule, be kept distinct from the Educational Branch. That these duties are kept distinct by the Provincial Statute 16 Vic: Cap: 89 which transfers the whole management of the funds property & affairs of the University & College to the Bursar, who is to have such assistance as Your Excellency may think proper to allow him. That if a Registrar be required, one could readily be procured for the Salary of £130, being the balance of the proposed Salary £250 after paying that of the Tutor.

The Committee concur in opinion with the Hon: Attorney General, and submit his suggestions for Your Excellency's approval

Sir,

In June last I agreed to sell to Mr. John Crawford, Barrister, Lots, No. 2. 3. 4. 5. 6 & 7. on the South side of King Street, in my block of land in this City, West of the Government House, consideration being, to discharge the balance of my indebtedness to the University about £1150. –

On the same day he assigned his interest in this property to Mr. Destarats, at an increased price, and Mr. Destarats also purchased from me, my interest in Lot No. 8. on the same range, but East side of Dorset Street.

I then understood from Mr.

The Honble
Geo: C. Cartier
Prov. Secretary.

Mr. D. that about the present period, he would be able to pay the Bursar, my debt, or make such other arrangement with him, as would release the rest of my property from the lien the University had thereon.

Finding now from Mr. Desbarats that in consequence of the large sum he has expended in erecting a very substantial building, on these lots, and from other causes that it is not convenient for him now to pay the sum he had assumed to discharge, (the interest of which however he has regularly paid to the

Bursar)

Bursar) I am desirous that the balance of my debt, that assumed, should be charged on the property he has purchased, much enhanced in value by his improvements, and that my interest in the Remainder, unsold, should be released to me by the University, so that I may be enabled to dispose of it, as I may think proper.

Would you be pleased to lay this Communication before His Excellency, the Governor General in Council, to the End that such measures, may be taken, as will ensure me the relief prayed for.

Sir,

I beg to bring under the notice of the Executive, the following facts in reference to a small property in this City, on the South East corner of Church, and Stanley, (late March) Streets.

1 Being in treaty with the owner of it, I applied to the then Bursar of King's College, Mr. Boyd, to ascertain the amount due thereon to the College, on the 9th day of December 1843. - he wrote me, stating that there was £105. then due for principal, the interest, on which, would be be required to be paid on the 7th March

March, and September in each year.

2. Upon this on 11th December 1843. I bought it for £150. which I paid to the original owner, and remained in possession, paying taxes &c for ten years, during which period, I frequently applied to pay the principal, and interest, but it was always demanded from me, by the College Authorities, a large excess of interest, and more particularly, on the 7th March 1845. the Sum of £43. 9. 10. instead of £9. 9. 0. which I refused to comply with.

3. The Lot is vacant.

4. About three years ago a formal

formal ejectment was brought by the College, and after which the College sold the Lot for £4. or £500, and received payment of the whole, or a part thereof.

5. Now I humbly submit that I should either be re-imbursed my outlay, or be entitled to be protected in my original purchase.

My outlay is as follows.

Secretary's Office,
Toronto, 21st Feby 1856

Sir,

I have the honor to inform you that His Excellency the Governor General has had under his consideration in Council the Annual Report of the Senate of the University of Toronto relative to the Affairs of the University for the year 1855, which Report was transmitted to me in a letter from the Registrar of the University of the 8th Instant.

2. His Excellency has had before him, at the same time, the Address of the Senate of the University of March

The Honble
William Henry Blake
Chancellor of the University
of Toronto

1854, together with their Annual Report on the University for that year.

3. I have now to intimate to you, for the information of the Senate, the decision of His Excellency in Council on the various matters referred to in those Documents.

4. His Excellency in Council has been pleased to assign and set apart for the use and purposes of the University that portion of the property, vested in the Crown by the 16th Vic. Cap 89, lying West of the College Avenue.

5. His Excellency in Council has further been pleased to authorize the Senate to contract for the erection of the necessary Buildings thereon, and to expend on such Buildings [illegible]

University Funds a sum not to exceed £75,000.

6. His Excellency in Council has further been pleased to authorize the Senate to expend out of the said University Funds a sum not to exceed £20,000 for the purposes of a Library and Museum.

7. It is hardly necessary to add that His Excellency of course assumes that the Senate will not enter into any arrangements beyond the limit of the resources of the University available for the above purposes
